About SEWP V

SEWP, is a multi-award Government-Wide Acquisition Contract (GWAC) vehicle focused on IT products and product based services. The contract includes a wide range of advanced technology including tablets, desktops and servers; IT peripherals; network equipment; storage systems; security tools; software products; cloud based services; video conferencing systems and other IT and Audio-Visual products. Product based services such as installation, training, maintenance and warranty are also available through SEWP. As an OMB authorized GWAC, the SEWP contract can be utilized by all Federal Agencies.

Through the SEWP V Indefinite Delivery, Indefinite Quantity (IDIQ) Government-Wide Acquisition Contract (GWAC) contract, SMS will provide enterprise technology across all Federal agencies from leading manufacturers. SMS' Group D products catalogue offers a full range of IT products and services, including network, video conferencing, integrated cloud services, advanced security products, and mobility solutions.

About SMS

SMS works side-by-side with our Federal clients, as a trusted, long-term partner. We offer innovative, expert, objective advice and leadership to help solve their most pressing and complex problems. We orchestrate people, strategies, technologies and best-of-breed business processes. We support the Government with comprehensive, optimized, turnkey solutions to critical requirements and we are a reliable source of cleared personnel. The SMS Advantage in management and technology consulting includes deep domain expertise in complex networking design and unifying communities of interest. We have strong capabilities in design & build, planning, governance, quality management, security, analytics, virtualization, operations and business process improvement. For over 40 years we have been bringing customer satisfaction to Federal clients,

SMS has formed lasting alliances with leading technology companies and talented small businesses to deliver joint, leading-edge, cost-effective services and products. We work with our vendor-partners to train and certify our engineers so that they are able to solve customer problems.
